

NEWS RELEASE

For Immediate Release

8th Jul 2015

Petredec are pleased to announce the delivery of their latest new build LPGC Saltram on 8th July 2015.

Saltram is the first of a series of 12 vessels being built for Petredec by Hyundai Heavy Industries, Korea.

The 84,000 m³ vessels incorporate HHI's revised hull form and are fitted with electronic engines making them our most fuel efficient vessels to date.

About Petredec:

Petredec is the world's leading independent LPG Logistics company. Delivering over 10 million tonnes of LPG (liquefied propane and butane) annually and with a controlled fleet of over 50 gas carriers, as well as a rapidly growing downstream presence (LPG terminals and distribution), Petredec continues to be an industry leader.
